Planning Policies

Any change to the Zoning By-law must conform to the policies of the Official Plan, London's long-range planning document. The subject lands are in the **Light Industrial Place Type** in *The London Plan*, permitting a broad range of industrial uses that are unlikely to impose significant impacts on surrounding light industrial land uses due to their emissions such as noise, odour, particulates and vibration, may be permitted. Industrial uses with large amounts of outdoor storage may not be permitted in the Light Industrial Place Type, dependent upon the character of the surrounding industrial area, specific policies at the end of this chapter, or any applicable guideline documents. Warehouses may be permitted. Small-scale service office uses may be permitted. Accessory office uses of any scale will be permitted. General offices will not be permitted. Uses that are not compatible with light industrial uses will not be permitted, to ensure that there are no encumbrances to the operation of the uses primarily intended for this place type. Service trades and contractors shops may be permitted. The Province's *D-series Guidelines* will be implemented to ensure that industrial uses and sensitive land uses are not located inappropriately close to one another.

An accessory retail use may be allowed in connection with a permitted industrial use provided the retail component is clearly ancillary to the industrial use of the property, is directly related with the products being made or assembled on site, is smaller in floor area than the industrial uses to which it is ancillary, is carried on within the main building of the industrial use, and does not generate traffic or parking that may have an adverse impact on adjacent properties.

Any change to the Zoning By-law must conform to the policies of the Official Plan, London's long-range planning document. The full range of uses described above will not necessarily be permitted on all sites within the Light Industrial Place..
