Who we are:

- This Service includes the budgets required to fund capital projects for all City of London Service Areas.
- The budget includes capital levy (pay-as-you-go financing), reserve fund contributions, and debt servicing costs for completed capital projects.

What we do:

- This Service is critical as it provides the capital financing to enable all Civic Service Areas to construct capital assets integral to the delivery of the City's almost 100 services.

Why we do it:

- This service provides capital financing to a variety of Civic Service Areas that are mandatory, essential and/or traditional.

The following table provides an overview of the budget for this service:

The following section provides an overview of the key activities the service plans to undertake from 2020 to 2023 to implement the Corporation's 2019 to 2023 Strategic Plan, as well as an overview of the risks and challenges the service is anticipated to experience during this period:

Service Highlights 2020 to 2023

- Continue to increase reliance on capital levy (pay-as-you-go) financing, particularly for lifecycle renewal capital projects, in accordance with the Capital Budget and Financing Policy.
- Avoid the use of debt financing for lifecycle renewal capital projects, with the goal of having 0% debt financing for this category of projects by 2022.
- Continue to limit and reduce the amount of debt financing required by:
 - Adhering to the City's internal debt cap;
 - Applying operating surpluses and surplus assessment growth funding to reduce authorized debt in accordance with the Surplus/Deficit Policy and Assessment Growth Policy;
 - Utilizing surplus from the capital budget to reduce authorized but unissued debt.
- Minimize debt servicing costs by:
 - Continuing to monitor progress against targets for debt servicing costs as a percentage of revenues for property tax, water and wastewater;
 - Maintaining the City's Aaa credit rating.
- Establish target balances for all reserve funds, including those funding the capital plan, and monitor progress against those targets on an ongoing basis.

- Review and update the City's Strategic Financial Plan to ensure the City's financial principles, including those relating to financing the capital budget, are up to date and reflective of best practices.

Risks and Challenges Anticipated in 2020 to 2023

- Considerable investments are anticipated through the 2020-2023 Multi-Year Budget in order to implement Council's 2019-2023 Strategic Plan. Balancing the need for community investment with the Corporation's financial policies and principles will be of paramount importance.
- The 2019 Province of Ontario Budget contained a number of initiatives aimed at reducing the provincial deficit, many of which are anticipated to have significant impacts on municipal finances, including the City's capital plan. The City will continue advocacy efforts with the aim of informing the provincial government of the potential impacts of the proposed changes, as well as working proactively to identify solutions to areas of shared challenges.
- Increases in interest rates driven by general economic conditions will increase the City's debt servicing costs. Finance staff monitor economic conditions actively and incorporate the most up-to-date information available from the City's fiscal agents and financial institutions into budget forecasts.

The service directly supports the following components of the Corporation's 2019 to 2023 Strategic Plan:

Building a Sustainable City
