Application Details

Requested Amendment to the 1989 Official Plan

To change the designation of the property by adding a specific policy area to the Multi-family, Medium Density Residential designation to permit a maximum residential density of 111 units per hectare, in place of a maximum density of 75 units per hectare with the potential to bonus up to 100 units per hectare. The intent is to align the 1989 Official Plan policies with The London Plan policies that apply to the site.

Requested Zoning By-law Amendment

To change the zoning from a Temporary/Urban Reserve (T-51/UR3) Zone to a Residential R9 Special Provision (R9-4(_)) Zone to permit a 4-storey (16.0 metre) apartment building with a maximum density of 111 units per hectare. The applicant has revised the application in response to City comments and to address design refinements. The effective changes are to increase the permitted height to accommodate a parapet wall, reduce the parking rate to accommodate parking lot and outdoor amenity space design requirements, and establish a maximum front yard depth to ensure the building is located close to the street. Changes to the currently permitted land uses and development regulations are summarized below.

The Official Plans and the Zoning By-law are available at london.ca.
