

NOTICE OF STUDY COMMENCEMENT

Oxford Street West Improvements Municipal Class EA Westdel Bourne to Sanatorium Road

About This Study

The City of London has initiated a Municipal Class Environmental Assessment (Class EA) study for improvements to Oxford Street West, from Westdel Bourne to Sanatorium Road (refer to key plan on reverse side of notice). This study builds on the City's 2030 Transportation Master Plan and Cycling Master Plan to develop and review options to widen Oxford Street West from two to four lanes, improve intersection operations including consideration of roundabouts, and improve pedestrian and cycling facilities through the corridor. The potential need to widen the Thames River Bridge will also be reviewed. In identifying improvements, the study will consider socio-economic, cultural heritage and natural environment factors, as well as technical requirements and aesthetics. In addition to addressing these transportation requirements, the study will consider any necessary upgrades and replacement of underground services (watermain, storm and sanitary sewer), as required.

About The Process

This study will be carried out in accordance with 'Schedule C' requirements of the Municipal Class Environmental Assessment (MCEA), (as amended 2015), which is an approved process under the *Ontario Environmental Assessment Act*. The study will also include a scoped Environmental Impact Study (EIS) in accordance with The London Plan Environmental Policies and the City of London Environmental Management Guidelines (2021).

How To Stay Informed and Get Involved

Involvement of Indigenous Communities, technical agencies and interested members of the public will be fundamental in developing the study recommendations. Formal opportunities for input will be provided around three Public Information Centres (PICs), to be held as the study progresses. Details of each PIC will be available under separate notices. For additional information including regular study updates and notices, to provide your input, and to be added or removed from the study mailing list, please visit the study website at:
