

New Sidewalk List

Updated May 8, 2026

The two tables below show locations where residents have requested sidewalks. Locations have been evaluated using the Priority Rating system and the earliest expected timeline for their implementation is shown below (when it is known).

Table 1 shows sidewalks that will be implemented as standalone projects through the New Sidewalk Program.

Table 2 shows sidewalks that will be implemented as part of other infrastructure projects; the timing for these projects is driven primarily by the larger infrastructure program or project.

Sidewalks are not always constructed in the order they are displayed. Among the factors which affect the order of sidewalk construction are:

- Coordination with other municipal infrastructure upgrades, such as sewer, watermain, or road work.
- Sidewalk connectivity
- Budget
- Feasibility

As the dynamics of each location may change, this list is regularly re-evaluated. Please contact [City staff](#) if you have questions regarding the specific timing of your location.
